Kirby,

That is inaccurate. There were also documents produced that were not deposition exhibits. Also, my clients obtained copies of the bank records directly (as you can see from the production).

Sincerely,

Chris – please confirm that your entire document production consists of exhibits we used during Forlit's depositions. Thanks

Vanessa,

Below is a dropbox link for the documents which SDC-GADOT, LLC and INSIGHT ANALYSIS AND RESEARCH, LLC have compiled responsive to the Court's Order at DE # 62. They have been compiled into a single file and Bates stamped.

They are not being filed with the Court, and contain bank account information in some of the Exhibits which has not been redacted. However, that information remains confidential and cannot be disseminated or filed with the Court without further redactions.
